

Mission Conservation Activities

Halloween

Below are a few fun activities you can do while celebrating Halloween!

INDOOR

Paper Plate Bat Puppet Craft

Supplies:

2 paper plates

Provided printable <https://kidscraftroom.com/wp-content/uploads/2020/07/Printable-Paper-Plate-Bat-Craft-Template.pdf>

Craft stick

Paint pens, paint, or markers (black, yellow, white, and blue or purple)

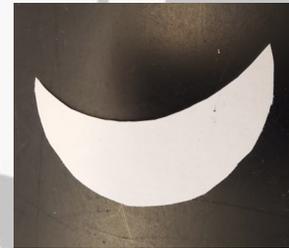

Stapler

Scissors

Glue or tape

What to do:

- Print out the provided printable on black cardstock if you have it. You can also print out the template and color the designs black.
- Cut the inside out of one of the paper plates and paint it black. Paint the other plate blue. Let the plates dry. Save the part of the plate you cut out and use it to cut out a moon.

- Cut out the bat and night scene of your choosing and decorate them. Paint pens work best for this, but paint or gel pens will work. Glue or tape the night scene to the bottom of the plate. Paint starts on the plate that is painted blue.

Mission Conservation Activities

- Tape or glue the bat onto the craft stick. Tape or glue the moon to the top of the black paper plate. Staple the plates together. Insert the craft stick between the plates on the bottom and staple next to it on each side. You are done!

OUTDOOR

Pumpkin Balloon Stomp

This is a great game for kids to play this time of year before it gets cold.

Supplies:

Balloons (preferably orange or another Halloween color)

Small candy or coins

What to do:

- Slide candy or coins into the balloons before you blow them up.
- Blow up the balloons.
- Put the balloons outside and the kids have to stomp on them and pop them to get the goodies that are on the inside.

Mission Conservation Activities

HOW CAN YOU HELP?

We all know that trick or treating is a lot of fun! But with all the candy, littering is a big issue this time of year. But, you can help!

Action we can take to help:

- Make sure to throw away your trash and always recycle when possible.
- If you see trash when you are out trick or treating, please pick it up and throw away.
- If you conduct the Pumpkin Balloon Stomp, through away the balloon pieces in your yard. Balloons can be extremely hazardous to wildlife, even the small pieces.

Have a fun and safe Halloween!
