SPRINGFIELD, Mo. – Annual memberships and admission tickets are now on sale for Wonders of Wildlife National Museum & Aquarium – the largest and most important natural history museum to open in America in more than a century. Wonders of Wildlife is a gift to future generations and the Springfield community from noted conservationist and Bass Pro Shops founder Johnny Morris, establishing a significant not-for-profit conservation attraction and education center in the heart of America.

Wonders of Wildlife consists of an all-new 1.5-million-gallon aquarium adventure showcasing 35,000 live fish, mammals, reptiles, amphibians and birds, combined with a remarkable wildlife museum offering an amazing tour of the wildest places on earth. The 350,000-square foot experience is larger than the Smithsonian Museum of Natural History and features more than 1.5 miles of immersive trails and exhibits that celebrate people who hunt, fish, and act as stewards of the land and water.
